A visit to a farm

I visit my grandpa's farm with my parents. There are lots of animals on the farm such as pigs, horses, donkeys, geese and goats. When I get to the farm, the pig is sleeping. The horse and the donkey are running. The geese are swimming in the lake. My favourite animal are the goats. They are eating grass.

The horse is faster than the donkey and bigger than the goats. The geese are noisier than all the animals on the farm. I love the animals on the farm. I will come and visit them again!
