Animals on the farm

I go to a farm and see a lot of animals. There is a pig, a donkey, a horse, some geese and two goats. The donkey is slower and smaller than the horse. The geese are louder than the goats. The horse is thinner than the pig.

The geese are swimming in the pond. The pig is sleeping. The horse is running next to the pond. The goats are eating.

I like this visit. My favorite animal on the farm is the small goat and I will always remember it.
