

**Benedict Wu (35) P.2D**

## **At the farm**

**At the farm, there are lots of animals. The horse is bigger than the donkey. The donkey is slower than the horse. There are two goats. One goat is bigger than the other goat but the pig is fatter than the goats.**

**The goats are munching on the grass because they are hungry. The geese are waddling in the pond. The youngest goose is the loudest of all the geese.**

**The farm is always full of noises. The animals there are always happy and energetic.**
